R, SQL, Python for Data Science, AngularJS, HTML, CSS, JavaScript, Git, Google Analytics, Data Visualization, JSON, Data Mining, Database, Data Preparation, Machine Learning, Linux, Cognos, Access, Excel, Wordpress

## Other Notables

Familiarity with REST API, JQuery, and ReactJS. Familiar with Python’s Flask and Django frameworks. Completed the CFA level 1 exam.

## Relevant Experience

### Technical Data Analyst

TJX Companies  
Apr 2016 - Nov 2016  
(Contract)

Automated data consolidation processes and streamlined reporting endeavors. Explored complex transportation data sets using statistical and visualization techniques with Excel, Access, Python, and SQL. Communicated insights from analysis.

### Financial Planner

Ameriprise Financial  
Aug 2014 - Nov 2015

Integrated cash flow, risk management, investment, and tax management analysis to fulfill client's financial objectives. Identified and measured performance of various financial security products.

### Co-Founder/Web Developer

RoPurt LLC  
Oct 2011 - Dec 2012

Co-founder of RoPurt, a web development company focused on small businesses. My primary responsibilities included implementing company business plan, maintaining marketing strategy, establishing client relationships, and building pricing models. I developed a working knowledge of PHP, CSS, HTML, and SQL.

### Social Work Case Manager

Department of Defense  
Jun 2011 - Aug 2014

Served as primary point of contact between DOD and VBA agencies for all progress of care issues related to severely injured military personnel. Project management focused on formulating relationships with non-profit entities to increase breadth of care.

### Social Work Case Manager

Monadnock Family Services  
Mar 2010 - Jun 2011

Managed the care of over forty severely mentally ill clients. Regularly assessed treatment needs and provided access to specialized services. Developed, monitored, and evaluated treatment plans; facilitated interdisciplinary approaches.
