Experience

Technical Data Analyst

TJX Companies
May 2016 - Nov 2016
(Contract)

Automated data consolidation processes and streamlined reporting endeavors. Explored complex transportation data sets using statistical and visualization techniques with Excel, Access, VBA, Python, and SQL. Communicated insights from analysis.

Select Banker

Santander Bank
Nov 2015 - April 2016

Managed a portfolio of banking relationships consisting of high net worth clients. Integrated banking relationship with investment services through identification of clients' financial needs.

Financial Planner

Ameriprise Financial
Aug 2014 - Oct 2015

Integrated cash flow, risk management, investment, and tax management analysis to fulfill client's financial objectives. Identified and measured performance of various financial security products.

Co-Founder

Ropurt LLC
Oct 2011 - Dec 2012

Web development company focused on small businesses. My primary responsibilities included implementing company business plan, maintain marketing strategy, established client relationships, and build pricing models. I developed a working knowledge of PHP, CSS, HTML, javascript, and SQL.

Case Manager

Department of Defense
Jun 2011 - Aug 2014

Served as primary point of contact between DOD and VBA agencies for all progress of care issues related to severely injured military personnel. Project management focused on formulating relationships with non-profit entities to increase breadth of care.
